(971) 340 - 8926

EMPLOYMENT

PAYDICI
Nov 2015 - Present
Portland, OR

Software Developer

- Revamped admin page to quickly search and filter though companies
- Wrote webhook endpoints to track certified mail batches, and allow managers to track and resend emails using Mandrill webhooks
- Built a reusable component-based UI with Vue.js for Paydici's new tax product. The components built were a shopping cart, payment form, profile page, and a multi-step modal form.
- Wrote the backend for checking out tax bills and making payments.
- Fixed bugs and maintained legacy code

UNISPARK
May 2015 - July 2015
Eugene, OR

Web Design Intern

- Designed icons and coded homepage for a startup specializing in autism software
- Created powerpoint presentations and assisted with business development
